

ISCWA (Ranging Workshop)

Attendees:- Ross (SLB), Van (SDI), Ian (HAL), Pete (CVX), Mike (BHI), Rob (GD), Son (CP), Steve (GD), Roger (BP) and Bill (BP).

Meeting Commenced (8:45am)

- Ross:- Kicked off with the agenda at 8:45am and discussed posting the Mission Statement on the ISCWA website.
- Ross:- Apologize for not producing the basis of a lexicon and said that we will work on this today. Presented an outline of his idea for the lexicon. Mentioned that he may not have the skill set to complete this document and asked for help.
- Ross:- Discussed getting approval from SDI and HES for placing some non marketing information on the website. Need to get WFT and PF on board.
- Pete:- Mentioned that there should be a single reference to a collection of papers on the web page.
- Pete:- Mentioned that there is a difference between a lexicon and an Overview Document. Volunteered to start the lexicon and capture the terms used in the industry.
- Pete:- Wanted to get a clear Objective Statement for the document.
- Roger:- Shared links to some Relief Well
 - <http://www.drillingahead.com/forum/topics/bp-relief-wellswhat-is-a>
 - http://www.jwco.com/relief_well_plan_cratered_well.htm (http://www.jwco.com/relief_well_plan_cratered_well.htm)
- Ross:- Requested to use HAL Presentation SAGD for material reference and was given the ok by Ian
- Ross:- Continued to work on the structure of the document with the agreement of the team.
- Ian:- Agreed to expand and add in the different versions of Active Ranging.

Coffee Break (10:00am)

- Pete:- Started defining lexicon on white board with the input of the team.
- Group:- Discussion on lexicon terms. Agreement and Disagreement.
- Steve:- Spoke about the ISCWA conference schedule for tomorrow 10/11/12 and reviewed the presentation he will be presenting.
- Bill:- Talked about API or another “Body” to endorse a standard and the need for the governing body to adopt this with the guidance from the group.
- Team:- Discuss the need to share Anti-collision Rules, Methods and Lesson Learnt for industry knowledge.
- Steve:- Reviewed the SPE survey from the Workshop which was held in Inverness. Overall rating was 78.3% and 51.1% definitely will recommend the workshop to a colleague.
- Pete:- Was assigned to put together the lexicon which was worked on by the team.

- Bill:- To follow up on Dave Barnett Document and on the possible release of the BP Relief Well Trajectory Design Guide.
- Ross:- Concluded by stating that he will summarize the overview document.

Next meeting will be held at ??? TBD!
