The Industry Steering Committee on Wellbore Survey Accuracy (ISCWSA)

Phil Harbidge - PathControl, General Manager - Kuala Lumpur
21+ years Wellbore Positioning
Well Placement, CA, Risk Assessment, Survey QAQC & Optimization
ISCWSA Webmaster and QAQC Sub-committee Chair, Drilling Data
Quality and Uncertainty Description Sub-Committee member

Work : PathControl :Intercept, Relief Well, P&A, Wellplacement, Survey Management,
Advanced Survey Corrections, Software Setup,
Database Audits, Training and more

Worked :

Sperry-Sun, Baker Hughes INTEQ and Schlumberger:DD Service CompaniesMarine Surveyor and Civil Engineer and the Planetary Space Science Research Institute

Technical Sections

Technical Section represents a grouping of global members who share an interest in a specific technical topic. These communities of SPE members share ideas, promote competence, and develop projects related to their technical interest. Technical Sections tend to be more task-oriented than discussion-oriented. They meet virtually for the most part, but are encouraged to hold a face-to-face meeting at least once a year.

Join a Technical Section here.

Current Technical Sections

- Artificial Lift and Gas Well Deliquification
- Carbon Dioxide Capture, Utilization and Storage
- Drilling Systems Automation
- Digital Energy
- Drilling Uncertainty Prediction
- Flow Assurance
- Flow Measurement
- Geomechanics
- Human Factors
- Hydraulic Fracturing
- Petroleum Data-Driven Analytics (PD²A)
- · Research and Development
- Separations Technology
- Sustainable Development
- Unmanned Systems
- Water Life Cycle and Strategy
- Wellbore Positioning
- Well Integrity
