- Our SPE.org page directly links to our iscwsa.net page

WPTS <https://connect.spe.org/wellborepositioning/home>

The screenshot shows a web browser displaying the homepage of the Wellbore Positioning Technical Section (WPTS) on the SPE Connect platform. The page has a dark blue header with the title 'Wellbore Positioning Technical Section'. Below the header, there is a dark blue content area with white text. The text announces the 57th General Meeting of the WPTS / ISCWSA, which will be held in Stavanger, Norway, in March 2023. It provides details about the meeting location (Equinor at the Equinor Business Center in Forus), the dates (Thursday March 9th and Friday March 10th), and the requirement for pre-registration. A blue button labeled 'Register to Join The Meeting Here' is positioned below the text. At the bottom of the page, there is a light gray footer area with a message for non-members and a link to join, along with information about sanctions.

Wellbore Positioning Technical Section
ISCWSA Meeting 57

Our Our Next Meeting is the 57th General Meeting of the WPTS / ISCWSA and will be held in conjunction with the SPE/IADC Drilling Conference in March 2023, in Stavanger, Norway, and we are pleased to announce that it will be hosted by Equinor at the Equinor Business Center in Forus. Subcommittee meetings will be held on Thursday March 9th, with the General Meeting on Friday March 10th. Pre-registration will be required for access to the meetings. Click and REGISTER HERE for the ISCWSA 57 meeting. Akker BP are kindly sponsoring a Networking event on the evening of March 9th, for pre-registered attendees of the General Meeting.

Wellbore Survey Accuracy (ISCWSA)

How to Join the WPTS

<https://www.spe.org/en/industry/technical-sections/>

Comprehensive, SPE-managed online knowledge bases covering all aspects of E&P.

Resources by Topic

R&D and TECHNICAL	BY FOCUS	CAREER DEVELOPMENT
Research and Development	SPE Disciplines	Continuing Ed, Training and Certification
The 5 Grand Challenges	SPE Journals and Books	SPE Industry Job Board
Petroleum Reserves Definitions	Gaia Sustainability Program	Mentor Program
Reserves Committee	Faculty	
CO ₂ Storage Resources Management System	Students	FEATURED RESOURCE
Technical Papers and Research	Senior Professionals	Members in Transition Toolkit
Technical Sections	Young Professionals	Support, advice and resources for members during the downturn.
	Diversity and Inclusion in O&G	

Technical Sections

Technical Section represents a grouping of global members who share an interest in a specific technical topic. These communities of SPE members share ideas, promote competence, and develop projects related to their technical interest. Technical Sections tend to be more task-oriented than discussion-oriented. They meet virtually for the most part, but are encouraged to hold a face-to-face meeting at least once a year.

Join a Technical Section here.

Current Technical Sections

- Artificial Lift and Gas Well Deliquification
- Carbon Dioxide Capture, Utilization and Storage
- Drilling Systems Automation
- Digital Energy
- Drilling Uncertainty Prediction
- Flow Assurance
- Flow Measurement
- Geomechanics
- Human Factors
- Hydraulic Fracturing
- Petroleum Data-Driven Analytics (PD²A)
- Research and Development
- Separations Technology
- Sustainable Development
- Unmanned Systems
- Water Life Cycle and Strategy
- **Wellbore Positioning**
- Well Integrity
